Getting Started

A friendly, no-pressure way to make your home feel lighter again.

Hello, friend.

Welcome in. If you picked this pack up, something in your home is probably bothering you — a pile here, a drawer there, a whole room you keep meaning to get to. That's okay. Homes gather stuff the way kitchens gather crumbs. This pack isn't about a perfect, magazine-ready house. It's about walking through your space, opening a few windows of time, and putting things back where they belong.

What's in the pack

SHEET	USE IT WHEN...
Room-by-Room Walk-Throughs	You want a simple list of what to look at in every room, nothing fancy, just a clear path so you never stand in the middle of a room wondering where to start.
One-Hour Zone Timers	You have exactly an hour (or want to carve out one) and would like it sliced into five easy stretches with a break built in.
Declutter Decision Card	You are holding an item in your hand and your brain says “but maybe...”. This card walks you through the decision so you don't keep everything out of guilt.
Freecycle & Donate Drop Log	You've bagged things up and need somewhere to track where each bag actually went — leftover momentum is a terrible thing to waste.
Deep-Clean vs. Daily-Done	You want to see which jobs are the honest once-a-season kind and which ones earn their keep every single day.
Windows & Wet-Weather Cheat Sheet	It's pouring rain outside, or the windows are streaked and you'd like streak-free results without buying a kit full of potions.
Big-Ticket Refresh Wish List	You're dreaming a little — the sofa, the blinds, the thing-replacing-the-thing long list — and want a page where the dreams can sit until budget season.

How to start (gently)

1. **Pick one sheet.** Just one. The Room-by-Room walk-through is the usual favorite.
2. **Pick one room.** The smallest one, or the one that bugs you most.
3. **Set a timer** — even 15 minutes counts. The One-Hour Zone Timer sheet shows you how to spend a whole hour without wearing yourself out.
4. **Bag up what leaves the house** and log it on the Drop Log. Watching the log fill up is quietly wonderful.

5. **Stop when the timer stops.** Ending on purpose is what makes it easy to come back tomorrow.

Printing notes

- All sheets print on standard US Letter (8.5×11 in). On A4, choose “Fit to page” — everything fits.
- Print single-sided so you can lay sheets flat while working, or pin one to the fridge.
- The decision card works beautifully trimmed and taped inside a cupboard door.
- Every sheet is designed to survive a highlighter, a spilled coffee, and a magnet.

> **One small promise**
>
> None of these pages will ask you to buy anything, sign up for anything, or feel bad about anything. They're just worksheets — warm ones. If a room takes three tries instead of one, you're not behind, you're just thorough.

Spring Cleaning Free Pack — a free, unbranded printable from Asdale Dynamics, LLC. Homemade with care; print as many copies as you like.
